

No headaches, no hassles. Just internet that works.

Get more done with Verizon's wireless business internet support services.

Flyer

Spend less time worrying about technology and more time handling your business.

Unleash your business potential with tech support customized to your needs.

Led by a dedicated Customer Success Engineer, our priority technical support services include:

Business Internet Priority Setup (\$75.00 one-time fee per router):

- Optimized router placement and testing
- Router management with media access control (MAC) filtering features
- Remote configuration support for optimal performance
- 30-day post-implementation and troubleshooting support

Business Internet Priority Help Desk (\$5/month per line):

- Expedited access to a support team
- Fast-tracked ticket handling for prompt issue resolution
- Resources for seamless change management
- Regular updates for issue resolution through email, SMS or phone

Get both to optimize your experience – and your savings:

Business Internet Priority Setup

**Only \$50 per router –
save \$25 off regular price***

Business Internet Priority Help Desk

\$5 month per line

Contact your Verizon representative today and discover endless possibilities for your business.

* This \$25 discount only applies for customers who maintain both Business Internet Priority Help Desk and Business Internet Priority Setup.
